EDUCATION

Duke University, Durham, NC | B.S. in Computer Science | GPA: 4.0/4.0

Grad Year: May 2028

SAT: 1560 (Math 800/Verbal 760) | National Merit Scholarship Finalist | Valedictorian of Half Hollow Hills High School East

RELEVANT COURSEWORK

Data Structures and Algorithms, Introduction to Computer Systems, Building and Sustaining a Successful Enterprise, Discrete Math with Proofs, Intro to Natural Language Processing, AP Computer Science A, Strategies for Innovation and Entrepreneurship

EXPERIENCES AND LEADERSHIP

Product Manager | Athletic Training Portal (ATP)

April 2026 - Present

- Built a "Compare Capture" tool and 3D Digital Twin with synchronized side-by-side video playback, giving coaches a single view to set athlete benchmarks and track goal progress across sessions
- Managed weekly feedback sessions with 4+ Duke athletics teams to guide data collection and feature prioritization
- Redesigned the company website's UI/layout, improving user engagement and reducing bounce rate by ~20%
- Optimized backend database queries, cutting average page load time by ~75% and improving site responsiveness

Innovation Scholar | Duke in Silicon Valley

May 2026 - June 2026

- Applied product management skills to advise early-stage startups on product decisions, user experience, wireframing and prototyping
- Engaged in "Building and Sustaining an Enterprise" with Aaron Dinin, working with Silicon Valley startups on customer empathy, venture financing, and go-to-market strategy

Shareholder and Director of Enterprise Entertainment | Campus Enterprises

April 2026 - Present

- Selected as one of 17 shareholders to run Duke University's largest and oldest student-run business. Generates over \$1M in revenue for local businesses and over \$300K in annual net income.
- Oversee end-to-end operations of a student-run photography business, including finance, advertising, and customer relations; generate \$10k+ in annual revenue
- Streamlined scheduling system coordinating 10+ photographers across 60+ weekly shoots, cutting booking conflicts and turnaround time

Data Structures & Algorithms Teaching Assistant | Duke Computer Science

August 2026 - Present

- Lead weekly discussion sections to reinforce learning & host evening office hours to provide academic support
- Attend weekly meetings to stay aligned with course objectives and work alongside fellow TAs to grade assignments and projects

Support Group Leader & Pediatric Honored Hero | Crohn's & Colitis Foundation

August 2023 - Present

- Raised \$6,500 for the Crohn's & Colitis Foundation and delivered keynote speech at annual fundraiser

SELECTED PROJECTS AND AWARDS

Recruiting AI Agent | Python | Built an AI agent that autonomously monitors 6+ job sources daily, filters and deduplicates postings, and emails targeted alerts, cutting manual internship search

Small Language Model | Java | Designed and developed a small language model to simulate algorithm of LLMs

UberKid App | Figma | Designed a safety-focused ride-share app for minors with real-time monitoring

Emergen-Q | The Cube LLC Buildathon | Won Social Impact Award (\$500) for developing AI-driven emergency room triage and wait-time prediction system improving transparency and patient outcomes <https://fifty-petal-57644868.figma.site>

Personal Website | Javascript, CSS, HTML | Designed and developed a personal website

SKILLS

Technical: Java, Python, R, C, Claude Code, Figma, Cursor, Codex, HTML, CSS, JavaScript, Supabase, Stripe, React.js

Dev Tools: Git, GitHub

AI: AI Literacy, Machine Learning, Agentic AI

Languages: English, Spanish

EXTRACURRICULARS AND INTERESTS

DTech (**VP of Community Development**); FEMMES+ Connect (**Mentor**); Duke University Student Dining Advisory Committee (**Member**);

Tasha's Tummy Monster (**Author**) — self-published children's book addressing fears of children diagnosed with Crohn's disease, available on Amazon and Barnes & Noble, donated to GI offices
