EDUCATION

Duke University | B.S. in Computer Science | Certificate in Innovation & Entrepreneurship | **GPA: 4.0/4.0** **May 2028**

SAT: 1560 | National Merit Scholarship Finalist | Valedictorian of Half Hollow Hills High School East

Relevant Coursework: Data Structures & Algorithms, Computer Systems, Building & Sustaining a Successful Enterprise, Discrete Math with Proofs, Natural Language Processing, AP Computer Science A, Strategies for Innovation & Entrepreneurship

EXPERIENCES & LEADERSHIP

Product Manager & Frontend Developer | **Athletic Training Portal (ATP)** **Apr 2026 - Present**

- Built a "Compare Capture" tool and 3D Digital Twin with synchronized side-by-side video playback, giving coaches a single view to set athlete benchmarks and track goal progress across sessions
- Conduct weekly user feedback sessions with 4+ Duke athletics teams, translating user requirements into prioritized product backlog items and feature iterations
- Redesigned the company website's UI/layout, improving user engagement and reducing bounce rate by ~20%
- Optimized backend database queries, cutting average page load time by ~75% and improving site responsiveness

Product Management Scholar | **Duke in Silicon Valley** **May 2026 - Jun 2026**

- Selected as 1 of 20 Product Management Scholars; collaborated cross-functionally with engineers, designers, and stakeholders, advising 20+ technology companies and startups on product strategy, business models, and innovation through site visits and user research
- Built an interactive Silicon Valley network map documenting industry connections and key takeaways to support future networking and collaboration

Director and Shareholder of Enterprise Entertainment | **Campus Enterprises** **Apr 2026 - Present**

- Selected as 1 of 17 shareholders to run Duke University's largest and oldest student-run business; generates over \$1M in revenue for local businesses and over \$300K in annual net income
- Oversee end-to-end operations of a student-run photography business, including finance, advertising, and customer relations; generate \$10k+ in annual revenue
- Streamlined scheduling system coordinating 10+ photographers across 60+ weekly shoots, cutting booking conflicts and turnaround time by 90%

Data Structures & Algorithms Teaching Assistant | **Duke Computer Science** **Aug 2026 - Present**

- Lead weekly discussion of 30+ students to reinforce learning and host office hours to provide academic support
- Attend weekly meetings to stay aligned with course objectives and work alongside fellow TAs to grade assignments

FEMMES+ Connect Mentor | **FEMMES Duke University** **Aug 2025 - Present**

- Mentor 5+ middle and high school students through weekly STEM research sessions, guiding interdisciplinary projects in computer science, psychology, biology, and mathematics culminating in an annual symposium presentation

VP of Community Development | **Dtech Scholars Program** **Aug 2026 - Present**

- Lead planning and execution of 10+ community events and General Body Meetings annually, strengthening engagement and belonging across DTech's 500+ member community

Support Group Leader & Pediatric Honored Hero | **Crohn's & Colitis Foundation** **Aug 2023 - Present**

- Raised \$6,500 for the Crohn's & Colitis Foundation and delivered keynote speech at annual fundraiser

SELECTED PROJECTS & AWARDS

Recruiting AI Agent | Python | Built an agentic AI workflow that autonomously monitors 6+ job sources, filters and deduplicates postings, and generates targeted alerts, automating manual internship discovery

Tasha's Tummy Monster | Author & Creator | Authored and self-published a children's book supporting children diagnosed with Crohn's disease; distributed 100+ copies through Amazon, Barnes & Noble, and pediatric GI practices

Emergen-Q | AI/ML, Figma | Won Social Impact Award (\$500) at Buildathon for developing AI-driven emergency room triage and wait-time prediction system improving transparency and patient outcomes <https://fifty-petal-57644868.figma.site>

Small Language Model | Java | Designed and developed a small language model to simulate algorithm of LLMs

UberKid App | Figma | Designed a safety-focused ride-share app for minors with real-time monitoring

Personal Website | Javascript, CSS, HTML | Designed and developed a personal website <https://juliazinkin.com/>

SKILLS

Technical: Java, Python, R, C, Claude Code, Figma, Cursor, Codex, HTML, CSS, JavaScript, Supabase, React.js, SQL

Dev Tools: Git, GitHub

AI: AI Literacy, Machine Learning, Agentic AI

Languages: Spanish (Fluent)
